Imam Baragah Road Rawalpandi

ABOUT ME

Full Stack Developer with hands-on experience in the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in building scalable web applications, RESTful APIs, and managing end-to-end development workflows. Proficient in Git, web scraping, and writing clean, efficient code to deliver practical, data-driven solutions.

EDUCATION

Mirpur University of Science and Technology | 2020-2024

Software Engineering

- Relevant Coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Web Development, Operating Systems
- Final Year Project: Multi-Disease Detection in Apricot Fruit using YOLOv8 (Deep Learning-based Computer Vision System)

WORK EXPERIENCE

Code Crafter Hub Lahore | Sept 2024 - Jan 2025

Web Developer

- Optimized application performance and collaborated with teams to implement scalable solutions, improving overall system reliability.
- Developed and maintained full-stack web applications using MERN stack to enhance user experience and system functionality.
- Built secure RESTful APIs and implemented authentication and authorization.

National Telecommunication Corporation | May 2025 - July 2025

System Administrator

- Monitored Linux server performance and network traffic to maintain system availability and security compliance.
- Executed and verified backup procedures, ensuring data integrity and disaster recovery readiness.
- Assisted in routine system administration tasks, including log analysis, user access management, and server maintenance in a Red Hat Linux environment.

Mehdi Technologies Islamabad G11 | Oct 2025 - Present

Full Stack Developer

- Developed and maintained scalable full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), ensuring high performance and reliability.
- Built secure RESTful APIs with authentication and authorization, and optimized application performance through efficient backend and frontend architecture.
- Implemented web scraping solutions for data extraction and customized WordPress websites, including theme configuration and plugin integration.

PROJECTS

Top AI Tool Hub Website

Tools: React.js, Next.js, Redux Toolkit, Tailwind CSS, Node.js, Express, MongoDB

Live URL : <https://www.topaitoolshub.com/>

- Developed a task management application with add, delete, and update functionalities.
 - Implemented Redux Toolkit for centralized and efficient state management.
 - Built modular components with conditional rendering to enhance usability and UI clarity.
-

Weather App Forecasting App Using API

Tools: Next.js, OpenWeatherMap API, Shadcn UI

- Integrated third-party weather API to fetch real-time city-based temperature, humidity, and forecasts.
 - Developed a dynamic and responsive UI for seamless weather updates.
 - Handled API errors and loading states with clear and user-friendly feedback.
-

YouTube Backend Clone

Tools: Node.js, Express.js, MongoDB, Multer, Cloudinary

- Integrated third-party weather API to fetch real-time city-based temperature, humidity, and forecasts.
 - Developed a dynamic and responsive UI for seamless weather updates.
 - Handled API errors and loading states with clear and user-friendly feedback.
-

madeinrwanda Website for Riwanda Products

Tools: React.js, Next.js, Redux Toolkit, Tailwind CSS, Node.js, Express, MongoDB

Live URL : <https://madeinrewandawebsitefrontend.vercel.app/>

- Built a responsive, multi-page educational platform with modern UI/UX design.
 - Integrated Framer Motion animations for smooth and interactive user experience.
 - Designed reusable components and mobile-friendly layouts using Tailwind CSS utility classes.
-

SKILLS

- | | | | |
|------------|----------------|-----------|---|
| • Next.js | • reduxtoolkit | • Node.js | • Web Scrapping (Selenium , Beautiful Soap) |
| • React.js | • Python | • Express | • RedHat Linux |
-

CERTIFICATION

- Front-end development (Coursera)
- Advance React Course (Coursera)
